

# Big Tits Token - \$TITS - Whitepaper

**ONLY CONTRACT ADDRESS: 0x3186f64831bfb605c902a131f378d7547dec62b9**

## HOLD BIG TITS

Big Tits Token was created on Base to be secure, fast, cheap, and easy to send. Big Tits is not just a meme coin. It's a movement fueled by a shared love of humor, creativity, and, let's face it, Big Tits. Big Tits is a community for those who want to be part of something fun, rewarding, and continuously working to grow. Powered by community-driven content, viral memes, and strategic influencer collaborations, \$TITS combines the best of internet culture with the explosive potential of crypto.

With a deflationary token burn system designed to reward long-term holders, \$TITS ensures that everyone can enjoy the experience of owning, creating, and watching their fun bags grow. We're a community of people who understand the value of humor, creativity, and, of course, Big Tits. We unite not under a cartoon character or celebrity name, but under a universal passion. We're proud to say we hold Big Tits and we work for our bags.

Holding Big Tits Token is about joining a growing, engaged community that sees the token's viral potential and assists in collaboration to make that happen. With a slogan like *Hold Big Tits*, meme culture at its core, community-driven content, a committed and active developer, and a token burn mechanism that rewards long-term holder's, Big Tits are primed and ready to increase the CC's. Big Tits Token is designed to provide a fun, rewarding, and engaging space where the community can create, share, and grow together. Built on the foundation that everyone loves to hold Big Tits, our mission is to empower crypto enthusiasts, content creators, and meme lovers to create, engage, and thrive.

We envision \$TITS becoming a top 10 Base chain meme coin; powered by a community that values creativity, participation, and long-term holding. Theoretically, as the Big Tits community grows, so does the token's value, creating a self-sustaining ecosystem where holding Big Tits feels as rewarding as it is fun. Eventually the community can look towards utilizing the token for access to their favorite content creator's content on telegram. Here the content creator can accept \$TITS, completely cutting out OnlyFan's 20% fees and potentially increasing more in value, or they can set up things like CollabLand to verify their following holds a minimum amount of \$TITS for general access to their servers. Lucrative staking pools can be set up to incentivize locking tokens for rewards. The opportunity to grow an entire ecosystem around Big Tits on Base is here, we just need your help spreading the word and assisting with making this happen.

# Growth Strategies

## Meme Challenges & Contests

We will regularly host meme contests that reward the funniest, most viral content with \$TITS. Every meme created contributes to the overall hype, helping Big Tits spread across the internet. This is a community token and it will grow faster and attract more members with more engagement.

## Social Media Virality

When you hold \$TITS, you're encouraged to share and amplify Big Tits memes across social platforms like X, TikTok, Instagram, Reddit, etc. The main account @BigTitsToken posts on each of these platforms every day, but the more you interact and share, the more the community grows, and the more viral momentum the token gains.

## Exclusive Community Events

Be part of exciting giveaways, exclusive drops, and community-driven initiatives that keep things fresh and fun. Being a part of the community means you'll never be out of the loop, but there may be incentives for holding larger amounts since the larger holders can impact the price most and are the ones most incentivized to help us grow. For example, I know the owner of jaxxon.com, a popular custom gold chain and pendant jeweler who can help us incentivize buying to become a top holder and get a free \$TITS pendant.

## Manual Token Burn

What sets \$TITS apart from other meme coins? It's simple: Big Tits grow over time. Through our deflationary token burn system, we are committed to burning 10% of the supply totaling \$162.5M at the time of the burns to ensure that the total supply of tokens is gradually reduced, creating scarcity and hype.

## Automatic Token Lock/Burn

Every buy and sell \$TITS incurs a 2% fee, this fee is added to a Lottery pool with the odds of 1/10,000 of winning 4x your purchase amount. The statistically low odds make this more of a burn, removing tokens from circulation and reducing supply. As the total supply decreases, the value of the remaining tokens increases, making the Big Tits you hold more valuable.

## Sustained Value Creation

This burn system reduces sell pressure and keeps the hype and momentum moving up. With fewer tokens circulating and more people getting involved, this ensures that holding Big Tits remains as rewarding as possible, creating long-term incentives for early and dedicated holders.

# Tokenomics

Big Tits Tokenomics is designed to encourage community engagement, long-term holding, and sustained value.

Here's how it works:

**Total Supply:** 69,420,000,000

- 100% supplied to the initial Liquidity Pool
  - Developer Paid for 10% of the supply to burn at certain market cap milestones detailed below.
  - Developer Paid for another 10% of the supply for various community rewards, marketing/engagement strategies, and potential exchange listings.

**Deflationary Token Burn:** 2% of each Transaction

- Big Tits Token was created as, and technically still is a lottery token. 2% of all buys and sells are automatically distributed to a contract. When making a purchase on Dojo.ing, you have a 1/10,000 chance of winning the lottery. If you're a winner, you will automatically receive a total of 4x your purchase amount from this contract. The odds were meant to be 1/100, but were coded to be 1/10,000, so this is essentially a burn mechanism, or incentive for some very large buys in the future in hopes of winning.

**Manual Burn:** 10% of Supply

\$5M Market Cap	1%	\$50,000
\$6.9M Market Cap	1%	\$69,000
\$10M Market Cap	1%	\$100,000
\$20M Market Cap	1%	\$200,000
\$50M Market Cap	1%	\$500,000
\$69M Market Cap	1%	\$690,000
\$100M Market Cap	1%	\$1M
\$1B Market Cap	1%	\$10M
\$5B Market Cap	1%	\$50M
\$10B Market Cap	1%	\$100M
TOTAL	10%	\$162,609,000

# Roadmap

## Q4 2024: Dev's Cookin'

- Fair launch with 100% of tokens supplied to pool & begin community onboarding
- Create socials: X, IG, TikTok, Telegram
- Design Website
- Update Basescan, DexTools, and DexScreener's Token information
- Renounce Contract
- Make a way for users to easily buy with Apple/Google pay

## Q1 2025: LOOK AT MY BIG TITS

- Begin the search for influential partnerships
- Increased focus on memes and viral social media campaigns
- Small-Mid size influencer partnerships to spread word of our community
- Achieve substantial growth on socials through partnerships and collaborations

## Q2 2025: These \$TITS are on Fire

- \$TITS is valued in ETH, so much of our movement will depend on the value of ETH and investor's enthusiasm to buy memecoins. There is no guarantee we ever hit the \$5M market cap to qualify for any token burns, but with the right overall direction in the crypto markets and the right partnerships and collaborations, the burns should be starting this quarter, shrinking the supply and raising the value of Big Tits.
- Larger Influencer-driven viral campaigns to push \$TITS to new heights, hopefully coinciding with new highs on ethereum, assisting with parabolic price action.
- Potential exchange listing to appeal to users only comfortable with buying on CEX's

## Q3-Q4 2025: Beyond the Meme

- Launch of exclusive content and events for dedicated holders.
  - Top 100 holders receive golden \$TITS pendants at \$10M
  - Top 10 holders receive solid gold \$TITS pendants at \$100M
  - Models and content creators collaborate and require a minimum amount of \$TITS held to access their content and join their independent communities.
- Further collaborations with top influencers, ensuring \$TITS stays in the spotlight and that holding Big Tits feels more rewarding than ever
- Community is large enough to be self-sustaining
- Members find new ways to create value
  - Potential ideas include onboarding OnlyFans models to accept \$TITS for access to their content on Telegram, completely cutting out the 20% fees on OnlyFans, and adding buy pressure to the tokens they hold, further increasing the value. \$TITS was created on Base to be secure, fast, cheap, and easy to send, so this vision is more than realistic with the right support.

# Conclusion

Big Tits Token is your gateway to becoming part of a vibrant, growing community that celebrates creativity, fun, and shared success. When you hold Big Tits, you're joining a group of like-minded individuals who are united by more than just a token; they're here for the camaraderie, the laughs, and the collective growth we're building together.

As the community continues to expand, so do the opportunities to connect, share in the journey, and enjoy the unique energy that comes with being part of something special. What are you waiting for? Join us today and become a part of the movement that's about more than cartoons, celebrities, memes, and the other usual memecoin narratives. We're all about holding Big Tits.
